Quality—Finish

**THE BRAINERD MANUFACTURING CO.,
EAST ROCHESTER, N. Y., U. S. A.**

East Rochester, N. Y.,

May 1, 1916.

This catalog contains the most complete information of the largest line of special hardware that has ever been presented to the trade. We give you the approximate weight and gauge of each article, also size of Screws or Escutcheon Pins to be used. We have also listed all goods with screws and without screws. The screws will be packed with each piece or pair when possible, otherwise in envelopes or small boxes with number of article so as to make the least possible trouble in handling goods when sold. We have increased our line extensively, and will continue to give the trade high grade quality and finish and prompt service, as we know that it is appreciated.

We thank you for your favors.

THE BRAINERD MANUFACTURING CO.

All other lists, discounts and net prices withdrawn

TERMS

30 days: 2 per cent 10 days from date of invoice

NOT from receipt of goods.

F. O. B. East Rochester.

Subject to sight draft 15 days after accounts are due.

In making remittance send us draft or money order (not check), as banks charge excessive exchange on latter.

All claims must be made within 5 days after receipt of goods.

Extra charge for less quantities than contained in original packages as listed.

When making remittance for small amounts, please send postage stamps.

Prices subject to change without notice

ATTENTION PLEASE

TERMS

30 DAYS NET.

F. O. B. East Rochester, N. Y.

2% 10 DAYS

We will allow two per cent. extra discount if remittance is made within ten days after date of invoices, which are dated on the day of shipment. This two per cent. extra discount for cash in ten days is given for no other reason but that it has been customary to allow it to the trade for a great many years, and the only excuse for giving it is to stimulate immediate payment.

A great majority of our customers adhere to our terms, but now and then a buyer seems to think that he has a right to deduct two per cent. upon receipt of goods, claiming that he does not wish to pay for goods until they are received. We do not ask our customers to pay for goods before they are received, but we insist that if they wish to deduct two per cent., they should do so on our terms. If we allow one customer to deduct discount when goods are received, we would necessarily be obliged to allow the two per cent. to everyone to be deducted upon payment and at their own time.

We are not responsible for delays in transportation, nor do we think it is fair to allow one man five or six weeks to receive the goods and then take cash discount, and insist upon another man paying promptly within ten days because his place of business is nearer our factory.

Please adhere to our terms.

THE BRAINERD MANUFACTURING CO.

PARCEL POST

All orders to be sent by Parcel Post will receive prompt attention. We will of course add the postage to your invoice with an additional charge of 3 cents for insurance, where invoice amounts to from 50 cents to \$15.00, so that you will not run any risk if package is lost in the mail. We want stock orders, but if you are in a hurry for a small lot of goods or want something that you do not care to stock, send us your orders and we will fill by

PARCEL POST

ACCOMMODATION ORDERS

We are willing to accommodate our customers and fill their orders for quantities less than listed in this Catalog, but we insist upon their paying for actual extra time of handling, repacking and other expense necessary to sending out a small order. We want to be accommodating, but cannot do it entirely at our expense. We shall, therefore, add a percentage to cover this extra expense, as stated at bottom of each page.

NOTICE

We pack Brass Screws with all Brass Goods listed with screws.

If you find Iron Screws with Brass Goods we will consider it a favor if you will notify us, so that we can replace them with Brass Screws.

As to Price

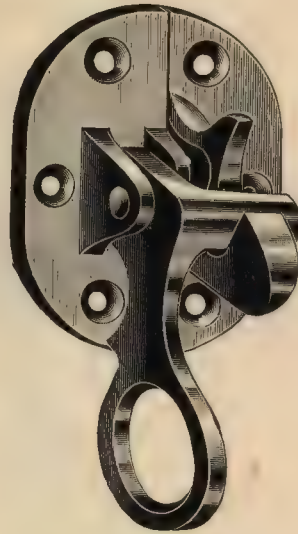

If our goods cost us from 10% to 25 % more on account of quality, than you can buy of others at the same price—you are getting more for your money from us. If on the other hand, you can buy a lower grade of goods for a little less money, are you really getting a bargain?

Do you want to have the reputation of carrying the cheapest goods you can buy?

RIGHT AND LEFT HAND FASTENERS

Left Hand

Right Hand

We pack all Fasteners one-half Right Hand and one half Left Hand as regular. If when ordering one hand only, you order as shown in above cuts, you will avoid confusion in filling orders.

There has always been a disagreement as to right and left hand locks and fasteners, builders hardware manufacturers differing from refrigerator hardware manufacturers. Therefore we wish to impress upon you the necessity of ordering as above cuts to avoid mistakes.

OFFSET FASTENERS

3/8" Offset Strikes are Regular

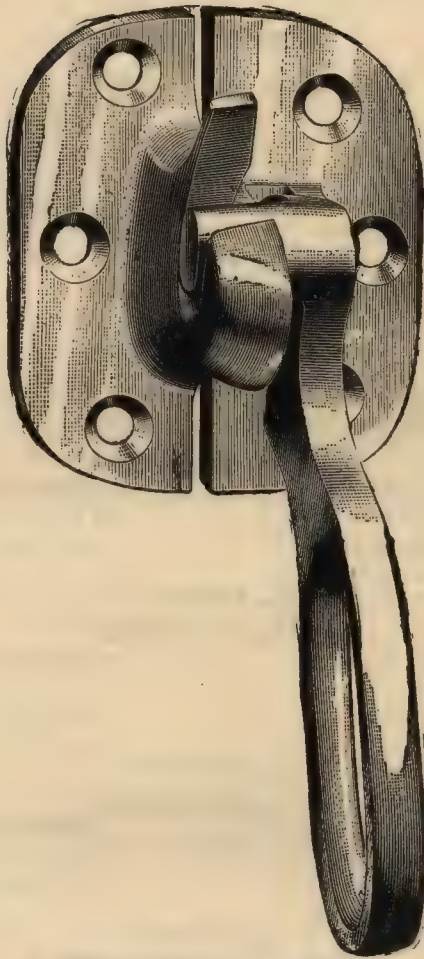

1/2", 5/8" and 3/4" furnished on special order at extra cost and we expect a reasonable time to fill all special orders.

FLUSH STRIKES

always sent on order unless off-set strikes are designated.

Our goods are packed as listed in this Catalog. If you want a less quantity, we must make an extra charge to cover cost of repacking. It costs us all that we charge to take them from the shelves in our stock room to our packing room and unpack and repack. It costs as much to enter, pack, ship, invoice and mail invoice for a 50c. order as for a \$50.00 order.

We have tried to give all the information we could in regard to our goods—giving full size, weight and gauge of metal of wrought goods, so that you can order from catalog with a definite idea of the goods you will receive. We have also listed all goods with screws and most all without screws. The screws will be packed in the most convenient way for handling.

We hope in this way to increase the sale of our goods.

**In Separate Packages With Number of Article on
Each Package**

ASSORTMENTS

The advantage of buying one of our Assortments, if you have not already an assorted stock of this line, is that you get a Sample Board displaying the goods, and then if you buy a \$22.50 Assortment, you get fifty-eight different articles, each article packed separately in a box, which would, if packed in the regular way, cost you \$50.00 for the same number of different goods, as practically all the goods in this Assortment are packed regularly 3 dozen in a box.

And then you get the advantage of our experience in regard to the sellers, and from our experience we know that all of the goods in these Assortments sell readily in most localities. If, however, you find that some of the goods do not sell to your trade, we are always ready to exchange for goods that do sell, so that there is no danger of "dead stock."

SPECIAL GOODS

Made to Order in Quantities

Dies and tools for producing any article of our manufacture are very expensive, and even a slight variation from regular patterns means new dies and tools.

Of course we must charge for these when figuring on order, and unless the quantity wanted is large the cost would be excessive.

We suggest using regular goods unless you can place an order for large quantities.

SAMPLE BOARDS

We know that if you display our goods that you will sell a great many more of them than you will if you put them on your shelves and wait for people to ask for them. Therefore, we will furnish Sample Boards without charge for board or labor of mounting samples, charging only for goods on board at regular price.

Our Regular Sizes of Boards Are

No. 2—10" x 15"

No. 3—12" x 18"

No. 4—15" x 22"

If your order or stock of our goods requires a larger board we will furnish special sizes.

We Can Furnish

Old Mission Cherry Oak

Finish

When placing an order for an assorted line, be sure to order a Sample Board.

WE STAND BACK OF OUR GOODS

If any customer receives goods from us that are not right we will exchange them for goods that are right.

This applies only to goods in packages with yellow label as shown on page No. 222.

WE STAND BACK OF OUR PRODUCT

If a buyer stocks our line and finds that after a reasonable time some of the articles are not good sellers, we will exchange them for goods that do sell.

This applies only to goods in packages with yellow label as shown on page No. 222.

For weight of Hexagon and Octagon Rods, take weight of Round and Square, add together, and divide by two.

Specific Gravity=8.509

Weight per Cubic Inch=.3074 lbs.

Weight per Cubic Foot=531.1 lbs.

These weights are theoretically correct, but variations must be expected in practice.

Table of Decimal Equivalents of 8ths, 16ths, 32ds, and 64ths of an inch. For use in connection with the Micrometer Caliper.
